

INDEX.

Page.		Page.	
Abbe, Cleveland—			
Note on the word Chinook.....	7	Buehler, Prof. A., experiments on shading the soil.....	374
The New England Meteorological Society	13	Chanute, Octave, prize monograph on the kite	374
Mexican climatological data13, 44, 123, 206, 290, 374, 421, 460		Coe, A. B., kites in Montana	237
Cold air in lowlands	14	How the Chinook came in 1896	413
Thunderstorms and clouds in Jamaica.....	15	Conger, Norman B., the tornadoes of May 25 in Michigan.....	156
Recent high balloon ascensions	16	Cox, Henry J., the tornado of May 25 in Cook County, Ill.....	168
Long-range forecasts, by B. S. Pague.....	166	Dallas, W. L., the upper currents of air.....	417
Frosts in California, by Prof. E. W. Hilgard.....	166	A storm developed in equatorial regions.....	417
Total snowfall for the winter 1895–96.....	167	Daniels, Paul, death of.....	375
Roentgen rays and cloudy condensation.....	167	Delebecque, Andre, extraordinary refractions, fata morgana.....	372
The tornado of May 25, 1896, in Cook County, Ill.....	168	Duffield, Gen. W. W., the ratio of the pound to the kilogram.....	482
Kites, balloons and clouds.....	206	Dufour, Prof. Charles, atmospheric refractions	372
Kites in Montana, by A. B. Coe.....	237	Errera, Prof. L., experimental study on the formation of clouds.....	373
The St. Louis tornado, by Prof. E. S. Holden.....	255	Espy, Prof. James P., experiments on dew-point.....	373
The periodicity of good and bad seasons, by H. C. Russell.....	290	Fassig, Oliver L., automatic cloud photography.....	456
On highs and lows.....	292	Fergusson, S. P., kite experiments at Blue Hill.....	323
Phenology	328	A high kite ascension at Blue Hill.....	327
Early experiments in atmospheric electricity, by C. E. West.....	333	Forel, Prof. F. A., refraction and mirage on Lake Geneva	372
Espy and the Franklin Kite Club	334	Frankenfield, H. C., tornado of May 27 at St. Louis, Mo.....	77
Isobars and their accuracy	334	Grenewald, Mrs. L. H., low temperatures in lowlands	14
The first attempt to measure wind force.....	336	Hall, Maxwell, clouds in Jamaica.....	15
Barogram near a hurricane center.....	336	Hammon, W. H., experiments with kites at San Francisco.....	288
Forms of clouds	369	Storm tracks on the Pacific Coast.....	419
Hoar frost rich in nitrogen, by A. Lancaster.....	371	Hazen, Prof. H. A., areas of high and low pressure. (<i>See</i> table of contents.)	
Atmospheric refraction at the surface of the water.....	373	The wind rush of September 29, 1896	322
An experimental rainfall	374	The heated term of July and August, 1896.....	289
Unreliable weather proverbs.....	374	The cold spell of November 16–30, 1896	414
The effect of shading the soil	374	Temperature of November and December, 1896	453
A prize for kite flyers	375	Henry, A. J., contributes the meteorological tables. (<i>See</i> table of contents.)	
Death of Paul Daniels	415	Acting editor of March REVIEW.....	69
Simultaneous balloon ascensions	416	Contributes local storms. (<i>See</i> table of contents.)	
The Franklin Kite Club	417	On the tornadoes of May 27	80
The use of the kite in meteorology	417	Tornadoes of April and May, 1896.....	82
Upper currents above the Indian monsoon region	418	Sunshine near Pomona, Cal.....	237
The origin of typhoons and hurricanes	419	Progressive movement of thunderstorms	331
The low areas on our Pacific Coast	420	The West India hurricane of September 29–30	368
High level isobars	458	Storm tracks on the Pacific coast.....	419
The Tennessee River and flood system	459	Relative humidity inside and outside of buildings	456
Sir Isaac Newton and his kites.....	461	Hermite and Besançon, balloon ascension, March 22, 1896.....	16
Early measurements of the velocity of the wind.....	461	Hilgard, Prof. E. W., frosts in California	166
Derham's observations of the velocity of the wind.....	461	Hilgard, Prof. E. W., and Mills, J. W., observations of sun- shine near Pomona.....	238
Production of rain by great fires	462	Holden, Prof. E. S., the St. Louis tornado.....	255
International cloud observations	463	Houzeau, Prof., thunderstorms in Jamaica.....	15
Ripple clouds of alto-cumuli.....	464	Kerkam, Robert E., a waterspout tornado at New Orleans	399
Constants and units used in meteorology	464	Klemm, —.—, barometric reading during a storm.....	77
Alexander, General E. P., the destructive forces of hurricanes.....	465	Koeppen, Dr. W., reduction of pressure to 5,000 meters.....	419
Aparicio, Julian, appointed director, observatory San Salvador.....	465	Lancaster, A., hoar frost rich in nitrogen	371
Assmann, Dr. R., the balloon ascensions of November 14.....	466	The use of the kite in meteorology	418
Baier, Julius, low pressure in St. Louis tornado.....	466	Lanouette, J. E., prevailing direction of thunderstorms	331
Bailey, Prof. L. H., instructions for phenological observations.....	467	Linney, Charles E., the tornado of May 25 in Cook County, Ill.....	168
Bárcena, Dr. Mariano, contributes Mexican data.13, 44, 123, 206, 290, 374, 421, 460.		Lyons, Curtis J., observations at Honolulu.....	30, etc.
Berry, James, Climate and Crop Service. (<i>See</i> table of contents.)		Marvin, Prof. C. F., cloud observations	8
Temperature departures during November, 1896.....	400	An improved nephoscope	10
Berson, Dr., the ascension of the balloon "Cirrus.".....	415	Kite experiments at the Weather Bureau.....	113, 156, 199, 238
Bigelow, Prof. F. H., the new magnet watch integrator.....	6		
Meteorology and magnetism. (<i>See</i> table of contents.)			
Birt and Ronalds, kite experiments at Kew Observatory.....	416		

	Page.		Page.
McAdie, Alexander, storms on the Pacific Coast.....	419	Rotch, A. Lawrence, the International Congress at Clermont-Ferrand	367
Equipment of an aero-physical observatory.....	453	The International Committee on aeronautics	462
McCarty, Dr. J. H., recent meteorological publications.....	76, 112, 153	Rouilliard, Capt. A., barogram near hurricane center at sea.....	336
Morrill, Park, river and flood service.....	406, 451	Russell, H. C., the periodicity of good and bad seasons.....	291
Reduction of pressure and temperature	490	Sanchez, Dr. Alberto, death of	464
Millet, J. B., on the Hargrave kite.....	417	Scott, Robert H., the International Conference at Paris.....	383
Nash, Prof. A. Q., tornado of May 15 at Sherman, Tex.....	81	Stupart, Prof. R. F., contributes Canadian data	1, etc.
Pague, B. S., long-range forecasts.....	166	Canadian snowfall in December.....	446
Long-range seasonal predictions for Oregon.....	368	Trowbridge, Prof. John, electro-dynamic radiations from the	
The chinook in Oregon	460	sun	409
Partridge, Prof. Ed. A., a method of filling a barometer.....	413	Urban, T. L., tornado of May 28, Columbia, Pa.....	82
Perez, Don Miguel, death of	464	West, Prof. Charles E., early experiments in atmospheric	
Phillips, Dr. W. F. R., sunstroke weather of August.....	409	electricity	333
Sunstroke in California and Arizona	454	Widmeyer, J. C., observations of alto-cumulus clouds.....	77
Pindell, L. M., regimen of the Chattanooga watershed.....	420	Wilsing, J., and Scheiner, J., electro-dynamic radiations from	
Proctor, Frank W., horizontal atmospheric rolls.....	367	the sun	409
Ripple clouds of alto-cumuli	463	Wilson, C. T. R., Roentgen rays and cloudy condensation.....	167
Putnam, G. R., force of gravity at American stations.....	416	Zendejas, J., on the altitude of Mexican stations	460
Rhees, Wm. J., the Franklin Kite Club and W. B. Taylor.....			
Rotch, A. Lawrence, the International Meteorological Conference at Paris, September, 1896.	365
